Mace is. Minecraft's strongest weapon, and on. Lifesteal only one of them exists. For a time nobody knew where it was and nobody knew who had it.

Until recently, these three players told everyone that they had the. Mace and that they would give it to the player that was most worthy. That means completing 10 peace trials and getting the highest score from the judges, but it's just one problem with that.

9 days in and. I haven't even started the trials, so. I have just 24 hours to complete 9 quests before the final one releases tomorrow.

Oh and. I may have killed one of the judges last week, which is probably not going to help my case either. But anyway, peace trial number one is to build an automatic farm at spawn that everyone can use.

And it just so happens that. I know a thing or two about making farms. So this is the perfect quest for me to really impress the judges.

I don't know what everyone else has built, but my idea is to build a snow-gallon slime farm. That has to impress the judges, doesn't it. I've almost gone all the materials for it, just missing a couple of repeaters, dispensers, and a piston.

Oh and mud. How could. I possibly forget about mud. The farm has to be built at spawn and has to be for public use for everyone.

I think the thing that makes it most impressive is that it gets you over a hundred thousand slime per hour. Yeah, come on, that's gotta be useful. But it looks like this is

spawned to me. Some people build really cool stuff built there.

Is that a water slide. Anyway, don't get distracted, mate. I think this is. Ashwax build.

Yep, I'm guessing this is a submission by someone else, a little tree farm, a lava farm. Yep, I'm gonna blow all these out of the water. I reckon this is a good enough spot to build it. I really hope.

I don't die in the process. Although there's only two of the players online, so. I should be okay. To start off with, I'm gonna dig a bit of a hole.

And now we can actually start building the farm related stuff. The mud goes here and then scaffolding in this spot. And with that, this jambour is now done and we're gonna add some walls like this, which slabs as well.

Now this right here is gonna be the spot where we will spawn the snowgolums that will get me the slime. These pistons are gonna push the gollums as they spawn. As the snowgolums spawn, they instantly have their pumpkins sheared so that the pumpkins are renewable and they go into that dispenser.

And with that, I think the farm is pretty much done. I just need to put a little button on there and then on these three things, snow, pumpkins and oozing pots. I see pumpkins and the good thing is. I don't need that many of them.

And snow, as you can imagine, is also very, very easy to get. And basically the more snow. I get, the more slime. I get per run of the farm.

A few more pumpkins here, perfect. In fact, they're everywhere. There's gonna be no pumpkins anywhere on the server.

Because they're all gonna be in my farm. The oozing will be very easy to get from my little auto-brue here. As you can see, it's bringing them very nicely. I see.

Vitalis here. He's also building the farm next to me. I'm just gonna quietly build this one. I don't know how many hearts he's got.

So the oozing goes into this dispenser and. I need to fill this up with a load of shears. Now to carve all my pumpkins with the farm complete.

I'm now gonna build a little auto-crafter to turn these extra snowballs back into snow blocks. And it is done. This lever turns it on and off. I can put snowballs in this chestbow and they will go into this chest crafted.

I'm also gonna make a nice little shokobock's loader to put all of the slime balls in. Let's load it up. And in theory, if I've done everything right, it also works.

I'm gonna start by placing these here. I just realized they're all dying on the campfire. I made a mistake. I meant to take that in so that that goes out.

Okay, take two. Alrighty, there we go. They're all surviving. As you can see, and then.

I press this button. They all get splashed with oozing. We've flipped this lever and it starts splitting them up.

And they should, they're dying and turning into slimes. Guys, it's actually working. And then from here, I can take out the slimes. And look at that.

It works as an XP farm as well. I can put all the slime balls into this shokobock's and.

I can put all the snow that comes through into here. And the crafter will send it into the chest. It's perfect. Alrighty, time to show squid-o.

Hopefully it all works fine for that. I then showed my builder squid-o, explained how it worked. I did a few safety features as you requested and she then decided if.

I would pass or fail the trial. Okay, yeah. I think this is a really good machine. Slime is really hard to get.

So it's really good that you put this here. It's born. I think what you've done is really good. I'm gonna give you a pass.

Congrats on turning your rifle, S. You've done it. So we passed trial one. I'm just going to fill up this shokobock's and take all the slime home.

Of course, I didn't build this just so somebody else could use it. I'm also gonna find all the slime very, very handy. And for the next trial, we actually need to quit. Minecraft.

Because for trial two, I've got to replace it to nowhere. I'm being violent in some way with one where. I'm being peaceful. Asked me on my main channel.

I think, friend of thought, I was fairly violent to clown quite a bit. So how about we replace this one with something nicer. Alrighty, I'm just gonna modify an old. PSD on.

Photoshop to lead everything else. Apparently there has to be flowers. Cherry blossom looks good to me. Let's spawn in a clown-pier spot.

Let's be honest, we all know the real clown-piers is a bot anyway. Let's add a few buffies around them. Get a nice little screenshot. Oh, it's beautiful.

Look at us. Me and clown-piers together with the flowers. We can perfect the colorization. And now when.

I refresh my channel, I can show the comparison. Oh, it's absolutely perfect. And now we wait to see what trial number three is gonna be.

Guys, they've accepted it. We have passed the test. And for the third trial, all. I have to do is make sure.

I'm subscribed to. SquidO, forceeVids, and. MysticUbe6. Also, you should totally subscribe to me too.

It makes a fancy rainbow effect if you do it. I really wanna hit five million this year. Anyway, trial completed. For the next one, I've got a spinner wheel, get a random member, and give them a full set of benjunted diamond gear.

I was gonna use that spare full set for myself. Anyway, the trial is the trial. Okay, SquidO spawn the wheel. I got flame fracks.

I feel like flame fracks is one of the worst players that. I could have got these forties. He's definitely gonna kill me. But hey, I have to forget about that and instead go for this pre-soft ring.

Now the trial says it must be a full set of benjunted diamond gear. I'm gonna grab my emeralds, as well as trade for some extra ones. And then. I can buy every single tool, every single weapon, and every single piece of armor.

You know what, I'm even gonna throw in some pots as well to sweeten the deal and iron. I have so much of it that. I won't really notice it. It just makes it look more impressive.

I can grab a poppy to make it red. I feel like that's kind of flame fracks is cooler. We'll name it for flame fracks. Clampiers is joint.

It's a shame that. Clampiers isn't the friend that. I'm looking for. Just in case.

I should probably just put this in the end of just, I feel like. Clampiers would know where his base is, but it's a little bit of a risk of that. So yeah, I've missed his flame fracks to let me know when he's online and now.

I can do nothing else but wait. Guys, it took five hours, but flame fracks has just messaged me on. Discord. And he's going to come online and meet me.

I narrate this next part like every other lifestyle member would in every house. Meeting flame fracks was the riskiest thing. I've done on life still so far. If he didn't like the gift, he could heal me and get me down to eight hearts and to take all of my stuff.

I were to have a chance to get the maze, then. I had no choice but to take the risk and go and meet one of the deadliest players on the server. I put as much valuable stuff in my end of chest as. I did and went to the place where.

I agreed to meet flame fracks. What did you think guys. 10 out of 10 life still narration. I'm genuinely a free kill if anybody finds me and with four of the players online right now, yet things aren't looking too good.

Come on flame fracks, hurry up, I can't wait forever. Well, I guess. I can, I'll just hide in this hole. He's about to log on but.

I've just realised. I should probably set my spawn in my base. Just in case something does go wrong and he's logged on.

Alrighty, it's go time. Clown piece logged off. Alrighty, well that says enough, I'm joking. I'm sure it's just a coincidence that clown piece logs off exactly and flame fracks logs on.

He's giving me the coordinates to meet at. This is probably the part where. I should have inserted the narration, yeah, I shouldn't even bother with that.

I shouldn't. Just stick to live commentary next to. Here's the spot and there he is, flame. My man, how'd you go.

You're good. I've come in pieces, you can see, you know, worst armor, nothing, nothing, nothing, nothing. I've danger. Well, the trust going on here.

Okay, okay. I never, I brought you a present. There's no context behind it, but this is for you. Shokobok's everything in it, it's all yours.

Oh really. Oh, thank you. You're welcome. You're welcome.

I legally cannot tell you why. Legally. Legally, wow. I don't know if he's legally but yeah, I can't tell you why but yeah, it's all for you.

Thank you. I mean, I don't know why you gave this to me but. I don't know. All will be revealed in my next live still video.

All right, well, I'll see you later. Thank you. You're welcome. Bye bye.

Peace. And it was that easy, ladies and gentlemen. Nothing to worry about, okay. We know we can trust flame.

All right, it didn't take me out. We just need to make sure we never make him angry but at some point. I probably will make him angry and. I'll do something that.

I'll probably try and kill him somewhere on the line and then he'll want to kill me. So anyway, that's all gone smoothly. I'm gonna head back home through the nether as well.

Just to save a little bit of time. And then. I can see what my next quest is for the mace and. I can put all of my good gear back on as well.

Bro, why is there a creeper here. I genuinely thought he was gonna blow everything up. Oh dear, the next quest is to sing either a loan on a livestream.

Post a clip of your singing on. Twitter or send him a clip of me singing. Yeah, I'm not much of a singer, guys. I've got this.

Yorkshire voice and an inability to sing in tune ever but hey, the mace is the mace and. I'm telling you now. I'm a bit of singing his n' plus gonna stop me. I've just asked if.

I can record myself singing and post a discord and that's it. The answer was yes and whilst. I standing in ice spikes by him, singing froze and we'll be fair, everybody know what we're not doing that.

My family's gonna wonder what's going on. Anyway, we're gonna do. Eminem lose yourself. We're gonna do one verse.

This might not be in the video because it might get copyrighted, but here we go. Look, if you had one shot or one opportunity to seize everything you ever wanted in one moment, would you capture it. Or just let it slip. His palms are sweaty, knees weak.

There's no auto tune in the world that could start that out. But if we have the mace by the end of it, it'll all be worthwhile. Guys, I'd somehow just finesse trial six. You were supposed to stream for 30 minutes with somebody that you don't know and make a new friend.

And we could go and meet. Girapchi on the server. We chatted for a bit, we made tea elies, and. I'd never spoken to me before.

I kind of said, I made friends with him then. Does that count. Well, you. BIRD it counted, they accepted it.

It wasn't even during the peace trial. Yeah, I kind of lied about that in my message. But yeah, the game's the game. And trust me, it gets worse for the next trial.

You have to make a public. Twitter apology of your life still wrong doings on your main. Twitter account. Either as a video or a message.

I'm gonna do it. I've no idea what everyone. Twitter's gonna think about this. I have to pretend it's true.

I cannot tell them it's for the peace trials. I guess. I'll just go for it and record something. If you want to see the full version, it'll be on.

Twitter and might cut this one down, or. I might leave it unedited. But what you have to do at the start is pretend you turn in the camera on.

Like it's very unedited. This is completely unscripted and unedited. I've got a few notes on my screen just to help me. It's 4am right now.

I can't sleep though. I've just got to get a few things off my chest. Okay. As you may know recently, I joined.

Lifesteal. I'm not here to apologize for that. It's more the events that have transpired since then, which have been negative to say the least.

I've had a lot of hate regarding that. I think. I just need to deal with it now. Sooner rather than later, before things get out of hand really.

Like. I said, joined. Lifesteal, that's not been a problem. But since then, I missed the opening ceremony of it starting.

I apologize for that. I'm sorry, I'm sorry for that. I've only uploaded one video on. Lifesteal.

I'm sorry for that. It's unacceptable. It's not helping the server at all. I haven't built a base at spawn.

I'm sorry for that. I should build a base at spawn and be more involved in the community. I killed. Pangi when he was helpless at spawn.

He was celebrating five days of no spawn killing and. I killed him. And it's never got that high again since. And that's on me.

I killed. Squid. Owing in cold blood when she was at spawn. She was just saying hello to me and.

I took advantage for the content and for an extra hard. I apologize for that. I'm sorry, Twitter. I'm sorry to everyone.

I will endeavor to do better in the future. I have no idea what. Twitter is gonna think. But hey, if it gets me the base, I don't care.

Well, as in gentlemen, the aftermath of the video, it's just kind of hilarious. People actually from. Lifesteal all forgive me. I think they also kind of have an idea that it's something to do with the base trials.

But then. Murkoz says, Bro is being forced to apologize for killing people in life that are not blooding more than one video on it yet. The things that people have freak out about. Like, he actually thinks.

I've genuinely had to apologize. It's okay, SP, I'm not mad. You look like you've been crying, SP, are you. You don't really look like.

I've been crying. Why is he apologizing for being in such so many people. I have no idea that it was a joke. I feel bad, but you know what.

I'll keep it on the internet anyway. And as for trial eight, it is a very cryptic and very strange message from four. Sievins. What we don't even pen does.

Today's trial is a test of intellect. Do you really believe you're smart enough among the mates. Prove it. And that is it.

Now no doubt throughout the thing, this little clue's like the sign behind him says survive. At one point there's this random screening of a bunch of different players. But guess what. I don't care.

I don't care because the people doing the base trials have betrayed me. They put an announcement saying that the peace trials are ending on the second of. August 2024 at 5 p. And that was like a few hours before that time, which is terrible because not only did.

I still need to finish the mace trials, I was out all day that day, I was playing golf and. I couldn't get back in time. I did those other seven trials for nothing because. I wasn't available at the time.

I did the final. Anyway, that is betrayal for the highest order. And the only person online right now is. Pangui.

I'm gonna go and speak to him at. Sponks. I need to work out who they gave the mace to because it has been passed on.

None of us actually know who it is. Pangui is one of the ones that was in the runnings of getting it. In fact, there were six people that completed all the mace trials and were available at the time.

Pangui, Prince. Zam, Ashwag, Kaboodle, Hannax. X Rose, and. Clownpayers.

Please, please do not tell me they're giving it to. Clown. So let's go find. Pangui and see if he has it, see if he can give any, does any information about who might have it.

I made a. Twitter apology video for nothing. I did a karaoke rap for nothing. Snap back to reality.

Oh, there goes gravity. Yeah, I'm definitely not happy. In other news, was this always here. Has this just come in recently.

Well, after say, it looks very, very cool. Anyway, what's the point. Where is. Pangui.

Why not build that farm as well. You know what, I have a good mind to destroy it and all the other peace trial farms. Also, why can. I hear so many cows below me.

What is, what is even down here. What on earth, if. I, what is going on in here. What is this.

I fall in there, do. I die. I'm mentally cramped, by the way. I don't know if.

I will, but. I'm kind of stuck now. Let's be, what are you doing down here. Get out of there.

What is this place. A sea grass farm or maybe for turtles. Sugar cane. Oh, very nice.

Who's base is this. Okay, Pangui's left the game, so that means. I'm the only one here. I hope it comes back, cause.

I do need to speak with him. I also hope there's no traps down here. I am going down a little bit riskily, aren't. Whoa, what is this.

Angi mine, total number of diamonds, 302, is this his base then. Oh, look at this. That's very, very cool indeed. This is like ethos lab, I love ethos lab.

This must be. Pangui's base. It is very cool, cause it's got that ethos lab underground area feel.

And it's all just so nice and organized. What's this button doing. Oh, wait, as there always been a button there. Wait, is it.

Pangui's house. Oh, Pangui's joined the game. Oh, okay, I don't, I need to go fix that hole. I made.

Well, at least he's back and. I can speak to him, and he'll never know. I was there, but hey, I'll, I'm glad. I know how to get into his little underground, but.

Pangui's on his way. Okay, we just need to find him. I then tried to. Pangui, he told me he had information.

I have information. I actually really, I actually do have information, yeah. Oh, really. I got some information from.

Amosashi. Fu that. I was a close second, actually, in the race, which means that what.

I did was, there's been something that has been, was pretty good. That let me on two other people that did sort of the same thing as. I did. And one of those people, it does

not have the maize, he confirmed that to me.

So there's only one person left that could have the maize that. I know. Okay, so you've pretty much eliminated all the possible ones apart from who it could be.

Honestly, if it's a good price, I'd love to give you all my reasoning behind it and tell you who has the maize. What would you like. What's your price. I just want to tell you know, there's no buffoonery, no.

This is all this thoughts, how. I think, on what. I think, and what. I've heard, actually, who the maize has.

Okay. I'm gonna be asking one heart for this information. But thankfully he said he'd have to be one of my hearts.

It can be one that. I've crafted. All right, well, I'll get the heart. All right, I'm glad we could do some business together.

All right, let's be, let me know when you wanna meet up again or the transaction and. I'll give you all the information you're in need of. Perfect, well, enjoy. All right, I will see you later.

See you later. I don't know, bye. Pangi seems to know who has the maize. I am inclined to believe that he knows who the keeper of the maize is.

Especially since he spoke with the ones who would decide who would have the maize. Princess. Amma agrees with him. I think we can trust him, even though.

I did kill him in the last video. But hey, hey, hey, that doesn't matter. So priority number one is to get an extra heart. We need to craft one.

That requires me getting the items for one of these three recipes. And as you can see, I already have half of the needed items to make the. Netherite ingots. Another eight ancient to real do that.

I've already got the dragon head. And right now. I'm at a drowned farm, so. I should be able to get the.

Northlash shells really quickly. This farm really is great. I've basically got a total of 10 Northlash shells, which means.

I'll have extra ones for the future. And now if. I fly in this direction, it'll take me to a lovely little gump out of farm.

So now. I'll just spend time getting loads and loads of that. I reckon that all of this has got to be enough. It's pretty much all that.

I can carry. Who built this. Whose base is this. A mushroom island.

Out of service, what does that mean. Well, it's a free-end adjust if nothing else. And it looks pretty cool. Like.

I said, I don't know who it is, but it does look cool. And now. I can get back to the main project, which is grabbing a load of sand, the craft, the load of.

What on earth is that. Whoa. I tell you, when you just mind eating real business, some of the things you find all life's deals are so cool.

I'm also pretty sure there's a sand duper in the end, so. I don't know why. I'm minding all this up. Hey, I've started now, I'll finish.

I reckon that should be enough. And now what is this volcano doing here. Like, who's is it. Is there a secret base down here.

There is an entrance, and there is a staircase. Hello flame, it is. I the. Lama.

Thieve, but meet me at a four-seed base. Does this mean this is flamed base. I suppose it could be, but. I have no idea.

There is also a little way through here. What is this. The little deepons find. Peter to see.

Steven. I don't know what this is all about, but there's a staircase heading downwards. Then a waterway to some area that's just been dug out.

Very strange. Anyway, I can't get set out, I dragged, because. I'm on a very serious mission to find the mace. What on earth is this.

Oh, it's a trading hall, isn't it. Oh, look at all these guys, hello. Yeah, I do wonder if this is flamed base then. I don't know who else it could be.

What is also in the. Nether. A minecart track. It's placed to another portal, at least to a village.

Oh, okay, so he's just used. Netherbottles to transport stuff. Very enough. Anyway, that's enough of that.

I'm gonna splash fire res, dig straight down, and dig a nice, what an earth is this. I'm not the only person looking for another, I guess. I was gonna build a nice long tunnel to place. TNT, but it looks like this one is ready done and ready to go, so.

I might as well take advantage of it. And at this point, it looks like. I've run out of tunnel, so. I shall light it all up and get busy collecting the ancient debris.

Apparently, if you blow up stuff on the chunk border, you do end up finding a lot more ancient debris, because that's where this tunnel was dug, and. I'll tell you what, I've already got 15 pieces, and there are no signs of it slowing down. Let's be honest, 30 ancient debris is fantastic. So now we can get out of here, head back home, where.

I can smell the ancient debris, and. I do also apparently need a little bit more gold, which. I can easily just get from this bastion, because for some reason it wasn't already looted.

I don't know why, I'm guessing all the other gold has been taken, so you'll let, oh, what, what, what, what, what, what, what, what we haven't had that before. Let me think about doing that advancement, anyway. For the rest of the gold, I can just mine up this ore, and set them all off, smelting.

And now let's make the. Netherite in. God's craft, the heart, and head back to spawn. I'm also going to build another this time, because.

I feel like it might be a little bit faster. All right, here we go. Let's go speak to. Pangi.

Whilst. I'm here, I might as well have his moisture cooking, because. I just never seem to ever have enough. Yep, I'll build a farm at some point.

I just need to get around to it. And there he is at his house. Well, let's see what he's got to say. Knock, knock.

Come in, hey man, so you needed some information, right. Hold on, let me get some lore music out real quick. Yeah, let's get serious, set the mood. Don't just.

Don't a mood. What if we actually talk at a more supreme place. A more supreme and neutral ground, how about that. Yeah, follow me.

I know exactly where we're going. I know exactly where we're going. The place where all the deals are being made all the time.

KFC, oh no, sorry, I was not on the same way. That's exactly how. I'm doing. You're not on the same way, like.

I was actually talking about the golf clubhouse. The golf club, since when was there a golf clubhouse. Since literally forever. So, do you need information, right.

I need information. Well, if we're on information, there's a prize that we agreed on. There's a prize. If you've got information, I've got the goods.

I then gave. Pangi the heart as promised, and he began to tell me what he knew. During the. Mace trials, the last trial.

To get the. Mace, according to. Master. Shifu, you had to kill the real squid out.

However, everyone knows that. I was obviously not how you would get the. Mace. It's the peace trials.

Why would you have to. It was a test, exactly. However, three of the six contestants didn't realize that.

So three of those people killed squid out, which means they were automatically out of the competition. Right, so. That's not good for squid out. Yeah, poor squid out of losing three hearts.

The real test was to show that you wouldn't give in to your desire to get a free heart. They gave you two options at the trial. One of the options was to either kill squid up and quote unquote get the.

Mace. Your option was to walk away. Both of those options wouldn't get you the. Mace.

Is what. I quickly figured out when. I was there. You had to show your through strength as a.

I don't know, as a person. As your mind. As a little. Shifu.

Yeah, exactly. That's a little. Shifu. Now, the people who killed squid out were.

Eshwag. I believe. Kabudol did so too and. Hanah did too.

So those three were automatically out of the race. So we know that they have not got the. Mace. So with.

Eshwag at. Kabudol and. Hanah all failing the final quest, that meant that the final remaining players that could still have the.

Mace were. Pangi, Prinsam and. Clownpius. Well, no, Zambok's away.

He didn't kill. He didn't kill squid out. But walking away wouldn't also get you the. Mace, obviously, because that's too easy.

I let. Squido kill me. I have a screenshot proof that. Squido told me that what.

I did, that. I got me very close second place. With. Pangi coming to close second, confirmed by the screenshot of his message with.

Squido, that left just one player that could have the. Mace. Pangi, please, please, no. Don't tell me.

Don't say it. Anybody with him. Anybody with him. The person who got the.

Mace is. Clownpius. Clownpius. I don't believe it.

Of all the players, Clownpius has ended up with the. Mace. Did somebody die here. Vitella playing.

What's. Okay, should you really be digging this up. Probably not, but. I can't believe it.

Clownpius. The player that attacked me the day. I logged on when. I had no armor.

One of the strongest players on the server has won the. P-Strials and got the. Mace. What was the other player thinking.

Why have they given it to him. There is however one saving grace when it comes to the. Mace. It cannot be placed in an underchest.

You can either keep it in your inventory or in a chest hidden somewhere, but it can't be in an underchest. So technically it is possible to either find it or get it by taking out. Clown. He's going to be very, very careful, but if he gets into a.

PvP situation, he will probably be able to use it and defeat any player. So can we get the. Mace from. Clownpius.

Is it a 100% Clownpius that got it. Well, it looks highly, highly likely. Unless. Pangu is a mastermind and has lied to me, it's definitely.

Clown. Not the twist that. I wanted. It could have been avoided if.

I hadn't been playing golf. I could have got it, but no, sadly, that has not happened. And now. I'll have to come up with a new plan to stop the.

Clown from taking over.
